MOTORCYCLE GOGGLES & HELMETS CATALOGUE

www.productosclimax.com

THE COMPANY

Productos Climax SA has become the first spanish manufacturer of Personal Protective Equipment and it's still a world reference in the motorcycling field.

With over 25 years of experience in the sector, we have become a benchmark in the world of work protection both at the national and international level, present in more than 70 countries, and we are one of the few PPE manufacturers to offer a most complete catalogues for this type of equipment.

We currently produce, design and distribute all the products from our factory located in Parets del Vallès, Barcelona.

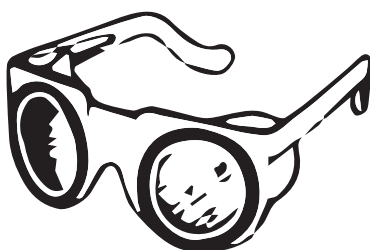

OUR HISTOTY

Productos Climax, the design and manufacturing process of riding goggles and helmets commenced in 1945. From the beginning up until now, our product manufacturing process has always been along the same lines.

Based on the use of top quality raw materials and the handcrafting of each piece.

Our first model specially prepared and designed for motorcycle racing was launched in the sixties, this being model 500. Model 521, ready for prescription glasses, should be highlighted from among those following.

GOGGLES HELMETS

In this way and based on the experience acquired during these years, at present P.C. continues offering an original product created and designed over 70 years ago, while also including the best possible improvements regarding innovation and quality materials .

All this allows us to continue being a worldwide reference, while having the support and acknowledgement of all die-hard motorsports enthusiasts.

Particularly with the
“CUSTOM & VINTAGE” product.

500

CLIMAX 500 motorcycle goggles chrome & black are retro style goggles with a comfortable fit. They were especially designed for Motorcyclist in the 1960's and worn by many famous motor racers those days.
